^{**} Change in ratio

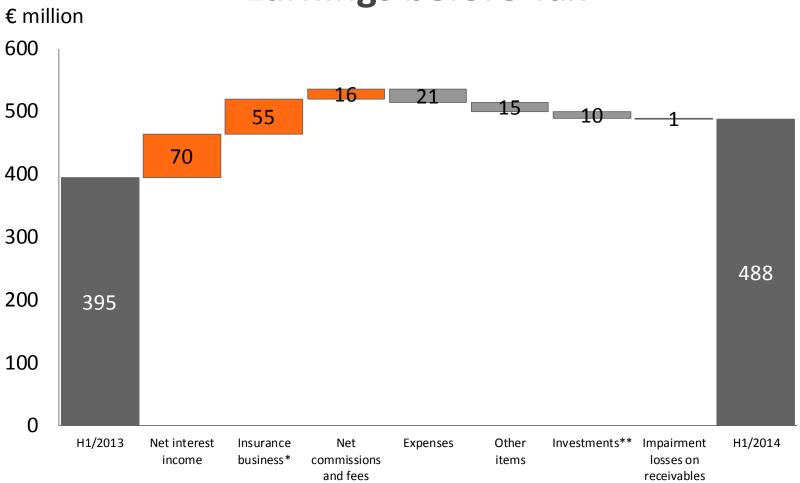

^{**} The comparatives are presented based on the regulatory framework that came into effect on 1 January 2014

- Under the Laki talletuspankkien yhteenliittymästä Act (the Act on the Amalgamation of Deposit Banks), the amalgamation of the cooperative banks comprises the organisation's central institution (OP-Pohjola Group Central Cooperative), its member credit institutions and the companies belonging to their consolidation groups as well as credit and financial institutions and service companies in which the above-mentioned entities together hold more than half of the total votes.
- ➤ The central institution's members at the end of the report period comprised OP-Pohjola Group's member cooperative banks as well as Pohjola Bank plc, Helsinki OP Bank Plc, OP Mortgage Bank, OP Card Company Plc and OP Process Services Ltd.
- By virtue of the Act on the Amalgamation of Deposit Banks, the central institution has both the right to control its credit institutions and the obligation to supervise their operations. The amalgamation of deposit banks is supervised on a consolidated basis. As laid down in applicable law, the member credit institutions and OP-Pohjola Group Central Cooperative are ultimately jointly and severally liable for each other's debts and commitments. OP-Pohjola Group's insurance companies, for example, do not therefore fall within the scope of joint liability.
- Deposit banks belonging to OP-Pohjola Group, i.e. its member cooperative banks, Pohjola Bank plc and Helsinki OP Bank Plc, are regarded as a single bank with respect to deposit insurance. Under legislation governing the Investors' Compensation Fund, OP-Pohjola Group is also considered a single entity in respect of investors' compensation.

Capital Adequacy

© OP-Pohjola

Two Capital Adequacy Ratios

Consolidated capital adequacy = capital adequacy of the amalgamation of cooperative banks

- The Group's operations are based on the Act on the Amalgamation of Deposit Banks
- The Act on the Amalgamation of Deposit Banks sets the minimum capital for the amalgamation of cooperative banks, which is calculated according to the CRR rules.
- The Act on the Amalgamation of Deposit Banks prescribes a minimum capital requirement for an amalgamation of cooperative banks. This is calculated using the provisions in the Act on Credit Institutions.
- The amalgamation of cooperative banks consists of the amalgamation's central institution (OP-Pohjola Group Central Cooperative), its member credit institutions and the companies belonging to their consolidation groups. Although OP-Pohjola Group's insurance companies do not belong to the amalgamation of the cooperative banks, investments made in them have a major impact on capital adequacy calculated in accordance with the capital adequacy regulations for credit institutions.

Capital adequacy ratio (under the Act on the Supervision of Financial and Insurance Conglomerates) = OP-Pohjola Group's capital adequacy

- OP-Pohjola Group is a financial conglomerate, pursuant to the Act on the Supervision of Financial and Insurance Conglomerates. The conglomerate is governed by specific provisions of the capital adequacy requirement.
- OP-Pohjola Group's capital adequacy pursuant to the Act on the Supervision of Financial and Insurance Conglomerates is calculated using the consolidation method, whereby assets included in capital resources but not included in equity capital, under the regulations for the banking or insurance industry, are added to the equity capital in the conglomerate's balance sheet.
 - Capital resources may not include items not available for covering the losses of other companies belonging to the conglomerate.
- The financial conglomerate's minimum capital requirement consists of the credit institutions' consolidated minimum capital requirement and the insurance companies' joint minimum operating capital.

In view of both capital adequacy requirements, OP-Pohjola Group's risk-bearing capacity is strong.

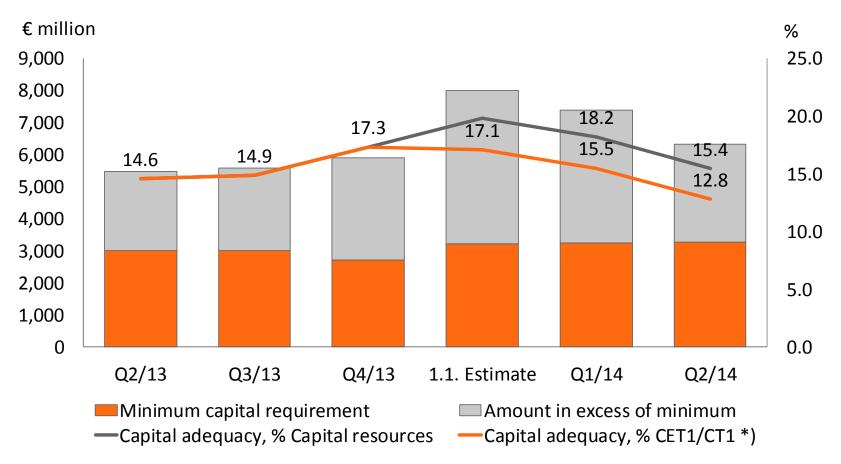

The credit risk of the capital adequacy of the Amalgamation of the Cooperative Banks is calculated using the Internal Ratings Based Approach (IRBA)

- The Internal Ratings Based Approach (IRBA) is applied to the following types of exposure
 - Retail exposure
 - Corporate exposure (FIRB)
 - Credit institution exposure (FIRB)
- The Standardised Approach (SA) is applied to government exposure
- A simple and PD/LGD method are applied to equity investments
